

# Interests

## Business

- Consumer tech & products
  - Platforms (iOS, Android)
  - Travel & delivery (Google Maps, Uber, Expedia, Instacart, DoorDash)
  - Messaging & social (Messages, Messenger, WhatsApp)
  - Photo sharing (Google Photos, Instagram, Snap)
  - Entertainment (Netflix, Prime Video, YouTube, iTunes)
  - News & blogging (Twitter, Substack)
  - Work (Google Workspace)
  - Devices (iPhone, MacBook, AirPods, Nest Cam)
- Enterprise tech (business models, strategy)
- Startup strategy (early iteration, product-market fit, growth, scaling)
- Technology trends - especially historical (web, mobile, cloud, big data)

## Finance

- Investing (portfolio theory, public market, startup)
- Consumer finance (banking, brokerage)

## Computer science

- Machine learning (statistical, theory)
- Programming languages (typed, functional)
- Systems (distributed, database)
- Data structures

## Software engineering

- Languages (Python, Java, Go, OCaml)
- Tools (git, Linux)
- Services (GitHub, Heroku, Parse)

## Mathematics

- Probability, statistics, linear algebra, calculus

## Life sciences

- Psychology (evolutionary, developmental, moral)
- Biology (neuroscience, genetics, pharmacology)

## Social sciences

- Economics (micro, macro, international, behavioral, labor market)
- Geography (economic, demographic)
- History (post-WWI, U.S., world, technology)
- Sociology (culture)

### Natural sciences

- Physics (mechanics (classical, relativistic, quantum), electromagnetism)
- Earth science (biomes, climate)

### Social causes

- Mental health
- Environmentalism (conservation, climate change)

### Meta

- Writing
- Mentorship
- Decision making (career, life)
- Life frameworks (health, learning, work, hobbies, relationships)
