# **Interests**

#### Business

- Consumer tech & products
  - Platforms (iOS, Android)
  - Travel (Google Maps, Uber, Expedia, Airbnb)
  - Delivery (DoorDash, Instacart, Amazon Prime)
  - Messaging & social (Messages, Messenger, WhatsApp)
  - Photo sharing (Google Photos, Instagram, Snap)
  - Entertainment (Netflix, Prime Video, YouTube, iTunes)
  - News & blogging (Twitter, Substack)
  - Digital tools (Google Workspace)
  - Devices (iPhone, MacBook, AirPods, Nest Cam)
- Enterprise tech (business models, strategy)
- Startup strategy (early iteration, product-market fit, growth, scaling)
- Technology trends especially historical (web, mobile, cloud, big data)

#### Finance

- Investing (portfolio theory, public market, startup)
- Consumer finance (banking, brokerage)

## Software engineering

- Languages (Python, Java, Go, OCaml)
- Tools (git, Linux)
- Services (GitHub, Google Colab, Heroku, Parse)

# Computer science

- Machine learning (statistical, theory)
- Programming languages (typed, functional)
- Systems (distributed, database)
- Data structures

### Mathematics

Probability, statistics, linear algebra, calculus

### Life sciences

- Psychology (evolutionary, developmental, moral)
- Biology (neuroscience, genetics, pharmacology)

### Social sciences

- Economics (micro, macro, international, behavioral, labor market)
- Geography (economic, demographic)
- History (post-WWI, U.S., world, technology)

Sociology (culture)

# Natural sciences

- Physics (mechanics (classical, relativistic, quantum), electromagnetism)
- Earth science (biomes, climate)

# Social causes

- Mental health
- Environmentalism (conservation, climate change)

# Meta

- Writing
- Mentorship
- Decision making (career, life)
- Life frameworks (health, learning, work, hobbies, relationships)
