Interests

Business
- Consumer tech & products
  - Platforms (iOS, Android)
  - Travel & delivery (Uber, Airbnb, Google Maps, Instacart, DoorDash)
  - Messaging & social (Messenger, WhatsApp, Snap, Instagram, Skype)
  - Entertainment (Netflix, Prime Video, Spotify, iTunes, Kindle)
  - News & blogging (Twitter, YouTube, Substack)
  - Utilities (Google Workspace, Focus)
- Enterprise tech (business models, strategy)
- Startup strategy (early iteration, product-market fit, growth, scaling)
- Technology trends - especially historical (web, mobile, cloud, big data)

Finance
- Investing (portfolio theory, public market, startup)
- Consumer finance (banking, brokerage)

Computer science
- Machine learning (statistical, theory)
- Programming languages (typed, functional)
- Systems (distributed, database)
- Data structures

Software engineering
- Languages (Java, Go, OCaml)
- Tools (git, jekyll)
- Services (GitHub, Heroku, Parse)

Natural sciences
- Math (probability, statistics, linear algebra, calculus, combinatorics; puzzles)
- Physics (mechanics (classical, relativistic, quantum), electromagnetism)
- Biology (neuroscience, genetics)
- Geoscience (biomes, climate)

Social sciences
- Economics (micro, macro, international, behavioral)
- Psychology (evolutionary, developmental)
- Geography (economic, demographic)

Humanities
- History (post-WWI, U.S., world, technology)

Social causes
- Mental health

Meta
- Writing
- Mentorship
- Decision making (career, life)
- Investing as life framework (health, learning, work, hobbies, relationships)
